## **Josh Torpey talks about the Senior Internship Program.**

This is an amazing and very rare New York City school program where ICE places seniors within internships during their last semester. All seniors have the chance to do this for 20-26 hours a week. Yes it's unpaid but the opportunities can be incredible.

ICE is always looking for new placements to offer meaningful guidance for our students.

We aim to sign up every child by Christmas so they can start the internship Jan 31.

Please contact Josh Torpey for more information.

## **The College Process by Jennifer Wells - ICE College Advisor**

Jennifer discussed the College prep class that she teaches to all Juniors one day per week. This class includes general discussion, interview techniques, college options, application and essay prep among numerous other subjects.

## **Funding College by Kalman A Chany**

Mr Chany discussed the fascinating variances and options for all future college attendees.

There is a slide show full of information available.
